MISSION STATEMENT

SIGNED AS OF FEB 3, 2021

UNIT IDENTIFICATION□
CODE...SEE ENCL (1)

HEADQUARTERS AND SERVICE COMPANY MEDICAL BATTALION

SUBJ: MISSION STATEMENT

1. Promulgation Statement. This is the Headquarters and Service Company (H&S Co), Medical Battalion (Med Bn), Marine Logistics Group (MLG) Mission Statement. This Mission Statement defines the unit's role and responsibilities in support of the MAGTF, the SE, and/or Joint Operations and prescribes the unit's organizational structure and capabilities in accordance with its tasks that manifests in the unit's table of organization and equipment (T/O&E).

2. Organization

Headquarters Command Staff
Company Headquarters Section
Combat Stress Platoon
Pharmacy Platoon
Surgical Platoon 1
Surgical Platoon 2

3. Mission and Tasks

a. Mission. Provide general Role 2 health service support to the Marine Expeditionary Force (MEF) and command, control, and command support functions for Med Bn, MLG.

b. Tasks

- (1) MCT 4.5.3 Conduct Casualty Treatment.
- (2) MCT 4.5.4 Conduct Temporary Casualty Holding.
- (3) MCT 4.5.5 Conduct Casualty Evacuation.
- (4) MCT 4.5.8 Conduct Medical Regulating.

4. Concept of Organization. The company is organized to plan, coordinate, and supervise the command support functions for the battalion, and to provide general Role 2 health services support to the MEF. It is structured to facilitate task organization for operations conducted by the battalion in support of the MEF or smaller Marine Air

Ground Task Force (MAGTF).

5. Concept of Employment. The company is employed with the battalion to provide command and control, facilities administrative support, and health services support. Detachments from the company headquarters, sections, and platoons may be assigned to provide support and/or augment adjacent companies.

- a. Maneuver. Not applicable.
- b. Intelligence. Intelligence support and products are provided by MLG Headquarters.
- c. Fires. Organic firepower is limited to individual and crew-served weapons for personal security and for defense of medical health care services installations per applicable international law, which defines company personnel as personnel employed in the administration of health care treatment facilities.
- d. Logistics. The company provides health services support and serves as an emergency resupply source for medical health care services materiel for supported medical health care services units.
- e. Command and Control. The Company Commander directs and controls command support functions relating to operations, administration, and tactical logistics for the company.
- f. Force Protection. The company has limited organic security capability.

6. Administrative Capabilities. The company is capable of self-administration, to include personnel administration for all assigned personnel.

7. Logistics Capabilities

- a. Maintenance. The company is capable of organic field-level maintenance. Field-level maintenance for medical equipment beyond organic capability, to include maintaining the authorized medical allowance list, is provided by Medical Logistics Company, Supply Battalion, MLG.
- b. Supply. The company is capable of organic supply support. Medical Logistics Company, Supply Battalion, MLG, provides Class VIII supply support.
- c. Transportation. The company is capable of organic transportation support for command and administrative purposes.
- d. General Engineering. The company is capable of organic mobile electric power generation and distribution. Additional engineering support is provided by Engineer Support Battalion, MLG.
- e. Health Services. The company is capable of organic Role 1 and 2 health care capabilities. Dental health care services are provided by Dental Battalion, MLG.
- f. Services. Services support is provided by Service Company, CLR x7, MLG. Food service support is provided by Food Service Company, CLR x7, MLG.

8. Command and Signal

- a. Command Relationships. The Company Commander reports to the Med Bn Commander.
- b. Communications and Information Systems. Communications support is provided by Communications Company, CLR x7, MLG.

9. Supersession. This Mission Statement supersedes the previous Mission Statement of 20 June 2017 and is effective upon receipt.

SURGICAL COMPANY
MEDICAL BATTALION

SUBJ: MISSION STATEMENT

1. Promulgation Statement. This is the Surgical Company (Surg Co), Medical Battalion (Med Bn), Marine Logistics Group (MLG) Mission Statement. This Mission Statement defines the unit's role and responsibilities in support of the MAGTF, the SE, and/or Joint Operations and prescribes the unit's organizational structure and capabilities in accordance with its tasks that manifests in the unit's table of organization and equipment (T/O&E).

2. Organization

Headquarters Platoon
Ambulance Platoon
Surgical Platoon 1
Surgical Platoon 2
Surgical Platoon 3

3. Mission and Tasks

a. Mission. Provide Role 2 health service support to the infantry regiment, as part of the Combat Logistics Battalion (CLB) including temporary casualty holding and casualty evacuation support.

b. Tasks

- (1) MCT 4.5.3 Conduct Casualty Treatment.
- (2) MCT 4.5.4 Conduct Temporary Casualty Holding.
- (3) MCT 4.5.5 Conduct Casualty Evacuation.
- (4) MCT 4.5.8 Conduct Medical Regulating.

4. Concept of Organization. The company is organized to plan, coordinate, and conduct health services support for the infantry regiment. It is under the tactical control of a CLB within Combat Logistics Regiment x7 (CLR x7), MLG, and may be task-organized to provide mobile health services support to sub-elements of the regiment.

5. Concept of Employment. The company is employed as a unit and provides health services support to the infantry regiment.

- a. Maneuver. The company maneuvers using organic assets and transportation from the CLB to support operations.
- b. Intelligence. Intelligence support and products are provided by MLG Headquarters.

c. Fires. Organic firepower is limited to individual and crew-served weapons for personal security and for defense of medical health care services installations per applicable international law, which defines company personnel as personnel employed in the administration of health care treatment facilities.

d. Logistics. The company provides health services support to the infantry regiment and serves as an emergency resupply source for medical health care services materiel for supported medical health care services units.

- e. Command and Control. The Company Commander directs and controls command support functions relating to operations, administration, and logistics for the company.
 - f. Force Protection. The company has limited organic security capability.
6. Administrative Capabilities. Administrative support is provided by Headquarters and Service Company, Medical Battalion, MLG.
7. Logistics Capabilities
- a. Maintenance. The company is capable of organic field-level maintenance. Field-level maintenance for medical equipment beyond organic capability, to include maintaining the authorized medical allowance list, is provided by Medical Logistics Company, Supply Battalion, MLG.
 - b. Supply. The company is capable of organic supply support to receive, temporarily hold, account for, and issue Class VIII supplies. All other nonmedical supply support is provided by Headquarters and Service Company, Med Bn. Medical Logistics Company, Supply Battalion, MLG, provides Class VIII supply support.
 - c. Transportation. The company is capable of organic transportation support for command, patient movement, and administrative purposes.
 - d. General Engineering. The company is capable of organic power generation. Additional engineering support is provided by Engineer Support Battalion, MLG.
 - e. Health Services. The company is capable of organic Role 1 and 2 health care capabilities. Dental health care services are provided by Dental Battalion, MLG.
 - f. Services. Services support is provided by Service Company, CLR x7, MLG. Food service support is provided by Food Service Company, CLR x7, MLG.
8. Command and Signal
- a. Command Relationships. The Company Commander reports to the Med Bn Commander.
 - b. Communications and Information Systems. Communications support is provided by Headquarters and Service Company, Med Bn, MLG.
9. Supersession. This Mission Statement supersedes the previous Mission Statement of 20 June 2017 and is effective upon receipt.

STANDARD UNIT BFR - MEDICAL BATTALION

[illegible]

[illegible]

BASIC FACILITY REQUIREMENTS WORKSHEET

Installation: H&S BN MCIPAC M **Tenant:** 3D MEDICAL BATTALION
Installation UIC: M67400 **Tenant UIC:** M13020 **Planning Area:** FO
CCN: 14345 **Nomenclature:** Armory

LOADING ANALYSIS / JUSTIFICATION OF REQUIREMENT

Description:

Mission: Provide health service support to the III Marine expeditionary force (IIIMEF).

CCN: Provides space for storage and routine maintenance of small arms.

Justification: Armory space is required for the maintenance and storage of weapons and serialized equipment for which the command is responsible.

Planning Criteria:

FC 2-000-05N

NAVFAC Infrastructure Reset BFR Consistency Guide

Loading:

FY2029 Table of Organization & Equipment (attached)

M28262 Surgical Company B is located at MCBH Kaneohe Bay and is not included in this BFR Calculation

Interview walkthrough with 3D Medical Battalion, S-4 Logistics OIC on October 30, 2024.

Analysis:

Total Space Requirement Armory storage is managed at the battalion level.

Storage ^{1,2}	Largest Co.	Cleaning Area ³	Total
1,358 GSF	252 PN	2,520 GSF	3,878 GSF

Storage See the attached UFC standard 143-45_MC_Armory.xls spreadsheet. Modified to include add'l

Subordinate Unit	Storage (NSF)	Gross SF
		1.28 NTG
M28261 H&S CO	643	823 GSF
M28263 SURGICAL CO A	418	535 GSF

Total = 1,358 GSF

¹ Accounts for storage of weapons and related items, stored on racks and shelves in cages. See attached TE for item description.

² Per the standard armory worksheet, each battalion requires a separate maintenance area, including desk/work space for armorers. Armory officers and chiefs, listed as 14345o on the TO, are afforded 120 GSF of office space. All other armorers, listed as 14345a on the TO, receive 105 GSF of space. See attached TO for billet breakdown. A standardized 134.2 GSF is added to accommodate personal weapon storage, locker storage, a hazmat locker and a safe.

³ Each battalion owns exterior, unenclosed, covered space for a weapons cleaning area, calculated as 10GSF/per PN for the largest company in the standard armory spreadsheet. Therefore, the space is calculated as 10GSF *252 PN (M28261).

TOTAL REQUIREMENT 6,398 SF

BASIC FACILITY REQUIREMENTS WORKSHEET

Installation:	H&S BN MCIPAC M	Tenant:	3D MEDICAL BATTALION
Installation UIC:	M67400	Tenant UIC:	M13020
CCN:	17110	Planning Area:	FO
Nomenclature: Academic Instruction Building			

Please see CCN 17120 BFR calculation.

The space requirement for a CCN 17110 Academic Instruction Building has been rolled up to the CCN 17120 Applied Instruction Building.

TOTAL REQUIREMENT	0	SF
--------------------------	----------	-----------

Page 1 of 1

BASIC FACILITY REQUIREMENTS WORKSHEET

Installation: H&S BN MCIPAC M **Tenant:** 3D MEDICAL BATTALION
Installation UIC: M67400 **Tenant UIC:** M13020 **Planning Area:** FO
CCN: 17120 **Nomenclature:** Applied Instruction Building

LOADING ANALYSIS / JUSTIFICATION OF REQUIREMENT

Description:

Mission: Provide health service support to the III Marine expeditionary force (IIIMEF).

CCN: Provides for training personnel through the applied use of technical equipment and tools; including complete functional systems such as weapons delivery systems, fire control systems, etc.

Justification: 3D MED BN requires applied instruction spaces to support H&S Company's Preventative Medicine Unit's mission and courses are not USMC-wide academic requirements. This space supports the training of combat medics using anatomical dummies.

Planning Criteria:

FC 2-000-05N (P-80) 171 & 441 series

NAVFAC Infrastructure Reset BFR Consistency Guide

Loading:

FY2029 Table of Organization & Equipment (attached) 

Interview walkthrough with 3D Medical Battalion, S-4 Logistics OIC and Medical Simulation Training Center (MSTC) POC on October 30, 2024.

Analysis:

Unit UIC/ Name	Classroom Space	Support Space	Total Gross SF
M13020 3D Medical Battalion	1,438	1,378	2,815 GSF

Total = 2,815 GSF

TOTAL REQUIREMENT **2,815 SF** Page 1 of 2

CCN: 17120 **Nomenclature:** Applied Instruction Building

STANDARD UNIT BFR - MEDICAL BATTALION

Classroom Space

Type of Space	No. of Seats	No. of Student Station	Allowance	³ Net-To-Gross	Total
¹ General Academic	30	-	21 NSF	1.33	838 GSF
² Hands-On Mockup	-	4	150 GSF		600 GSF

Subtotal = 1,438 GSF

¹ Per MSTC POC, it is ideal to have 30 seats at a time in a General Academic Classroom. Per Table 17110-1 Space Criteria for General Academic Classrooms, an allowance of 21 NSF per seat is given.

² Per MSTC POC, there are 4 different stations at a time to conduct training personnel through use of technical equipment/tools such as an anatomical dummy/mannequin. Per CCN 17120, an allowance of 150 GSF per student station can be applied to compute gross area.

³ Per Table 171-1 Space Allowances for Intruction Facilities, multiply NSF by. 133 for Net to Gross conversion.

Support Space Space

Type of Space	Qty.	Allowance	Net-To-Gross	Total
Instructor's Work Space	1 Instructor	60 NSF/Instructor	1.33	80 GSF
Instructor's Lounge	-	450 NSF (fixed)		599 GSF
Student Break Area	30 students	6 NSF/Student		239 GSF
Training Aid Storage	30 students	1.5 NSF/Student		60 GSF
¹ Additional Training Work Space	-	400 GSF		400 GSF
² Additional Storage Space	-	623 GSF		623 GSF

Subtotal = 1,378 GSF

¹ Per facility walkthrough and engineering evaluation, an additional training work space is required to prepare anatomical dummies to mimic real life situations such as painting them to be used for training.

² Per facility walkthrough and engineering evaluation, an additional storage is required to store all training aid materials in addition to the Training Aid Storage provided with 1.5 NSF per student.

BASIC FACILITY REQUIREMENTS WORKSHEET

Installation: H&S BN MCIPAC M **Tenant:** 3D MEDICAL BATTALION
Installation UIC: M67400 **Tenant UIC:** M13020 **Planning Area:** FO
CCN: 44112 **Nomenclature:** Storage of Air or Ground Organic Units - USMC

LOADING ANALYSIS / JUSTIFICATION OF REQUIREMENT

Description:

Mission: Provide health service support to the III Marine expeditionary force (IIIMEF).

CCN: Provides general purpose storage facilities assigned to the 3D MED BN for organic materials.

Justification: Organic Supply Storage space is required to provide storage for the equipment for which the command is responsible.

Planning Criteria:

FC 2-000-05N 440 4-step method

Subordinate Unit	PN	Area
M28261 H&S CO	252 PN	335 GSF
M28263 SURGICAL CO A	179 PN	238 GSF

Totals = 431 PN 573 GSF

¹ Each TAMCN on the TE tab with a 44112 in the CCN column is calculated in this table. The net volume was calculated using the organizational quantities shown on the TE and the dimensions listed in TFSMS, in USMC technical manuals, or through field verification. These dimensions are shown on the TE tab. Individual equipment was assumed TE be supported by the LOGCOM Supply Program (IIF) or stored in the Armory.

² The % factor was applied TE account for consumables and small garrison equipment.

³ All Non-TE items were assumed TE be under the UIC that controls the Supply Warehouse (typically H&S) as there is no way TE verify which piece of equipment belongs TE each subordinate unit.

⁴ Universal Loss Factor per UFC 2-000-05N section 440-2.2.1 Step 1. Palletized Items or items in crates are given a loss factor of 1.2 as they are already "boxed" but the boxes require racking or shelving.

⁵ 400 NSF for shipping/receiving is allocated per Headquarters Company based on BFR Consistency Guide.
